CHAPTER 4 FINDINGS OF THE STUDY.

4.0 INTRODUCTION

This chapter presents the results and analysis on solid waste management among house hold level in Mwala town ,Machakos County

The data collected was analyzed using scientific calculator. The results were presented in frequency table and pie charts.

4.1 SOCIAL DEMOGRAPHIC FACTORS

4.1.1. AGE OF THE RESPONDENTS

The study was to find the age of respondents and the findings were as shown below

AGE	FREQUENCY	PERCENTANGE
18-25	17	15.2%
26-35	18	17.2%
36-45	28	18.2%
46-55	21	21.2%
56 and above	16	15.2%

Table 1: . Age Of The Respondents

As represented in the above table majority of the respondents are between ages 46-55 years with 21.2% ,36-45 with 18.2% , 26-35 with 17.2% ,18-25 with 15.2% , 56 and above with 15.2%.

4.1.2. WHATS YOUR GENDER

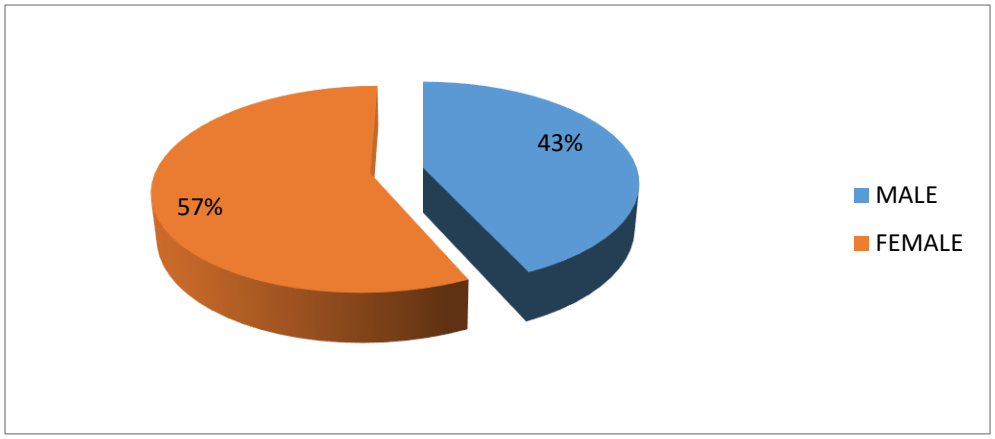

Figure 1: Gender

Figure 1 sows that the majority of the populations were female with 57% and male were 43% of the population of the data collected.

4.1.3. LEVEL OF EDUCATION BACK GROUND OF THE RESPONDENT

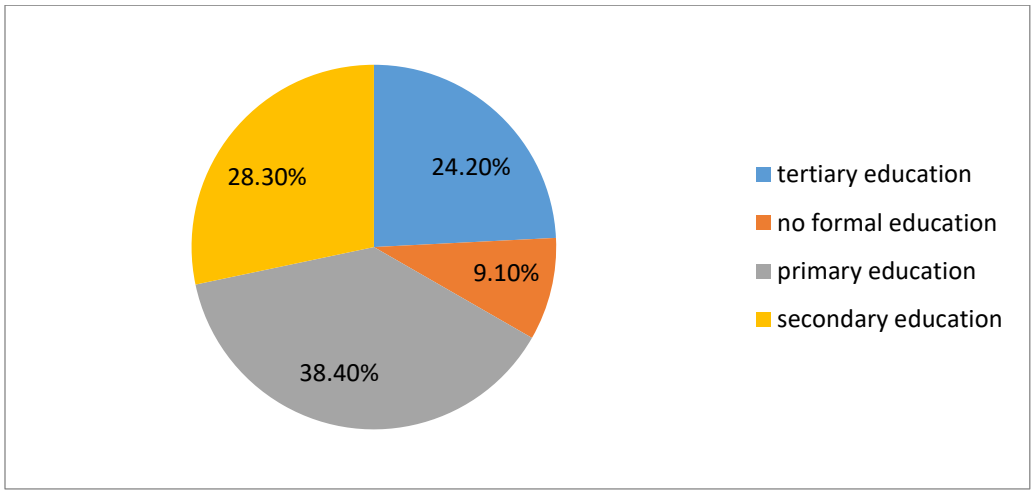

Figure 2: Level Of Education Back Ground Of The Respondent

The figure above shows the level of education of the respondents, 38.4% reached primary education

, 28.3% secondary education, 24.4% tertiary education, 9.1% no formal education.

4.1.4, OCCUPATION OF THE RESPONDENTS

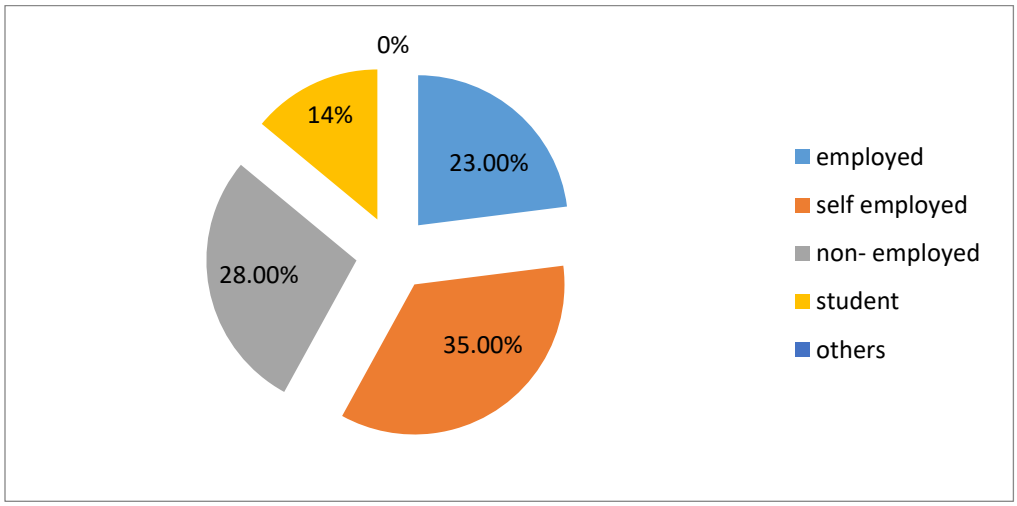

Figure 3 Occupations

The data shown above presents the occupation of the respondents. Majority of the respondents are self-employed with 35.0%, 28.0% are non-employed, 23.0% employed, 14% students and others.

4.1.5 .WASTE COMMONLY GENERATED BY THE RESPONDENTS

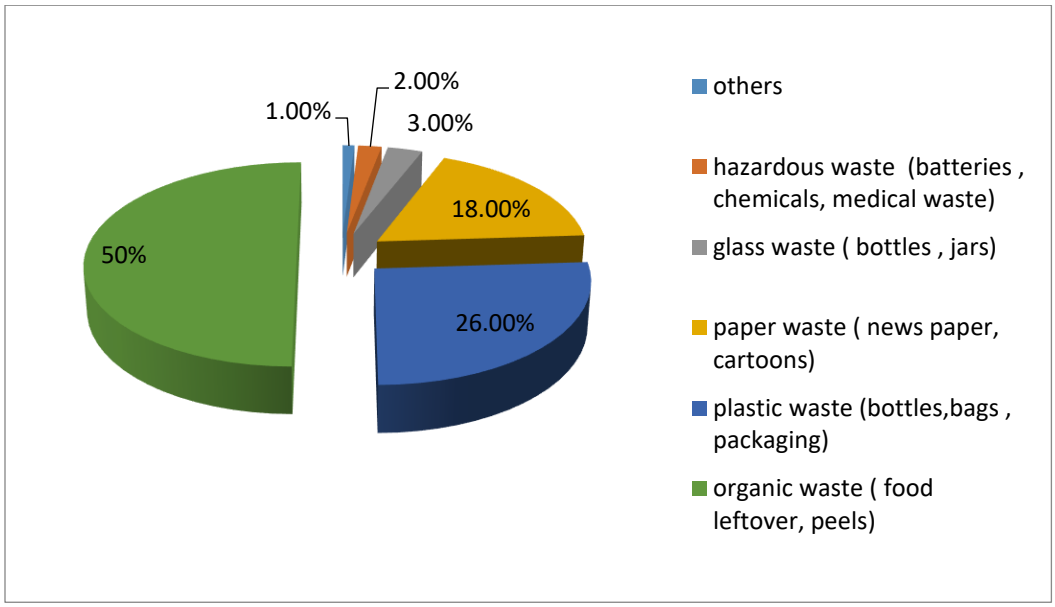

Figure 4. Waste Generated

According to the data shown above the amount of waste generated from the respondents household 50% are organic waste which is the most generated waste followed by 26% plastic waste, 18% paper waste, 3% glass waste , 2% hazardous waste.

4.1.6. DISPOSAL OF HOUSEHOLD WASTE BY RESPONDENTS

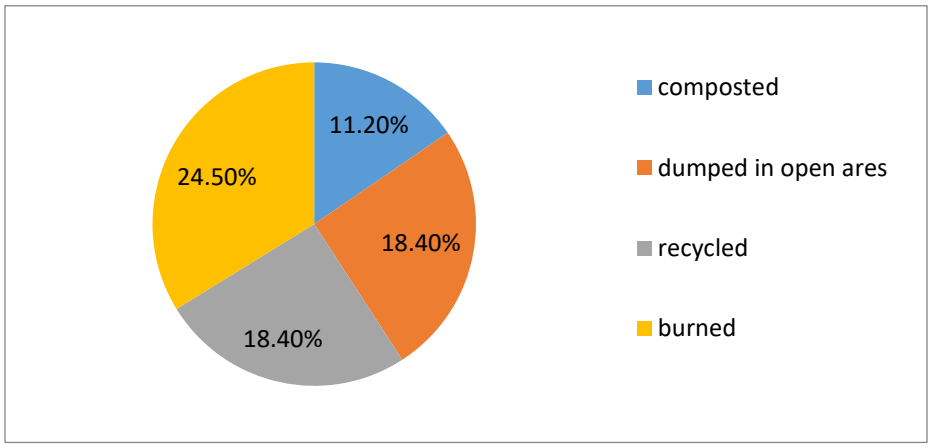

Figure 5. Disposal Methods

The figure shown above demonstrate how respondents dispose their waste where the majority 24.5% burn there waste , 18.4% dump in open areas, 18.4% recycle 11.2% compost their waste.

4.2 KNOWLEDGE LEVEL

4.2.1 DO YOU SEPARATE WASTE BEFORE DISPOSAL

The table below shows the respondents who are aware on how to separate waste before disposal and 93.7% are aware while only 6.3% are not aware

RESPONSES	PERCENTANGE
YES	93.7%
NO	6.3%

Table 2: Do You Separate Waste Before Disposal

4.2.2 WHAT CATEGORIES DO YOU SEPARATE

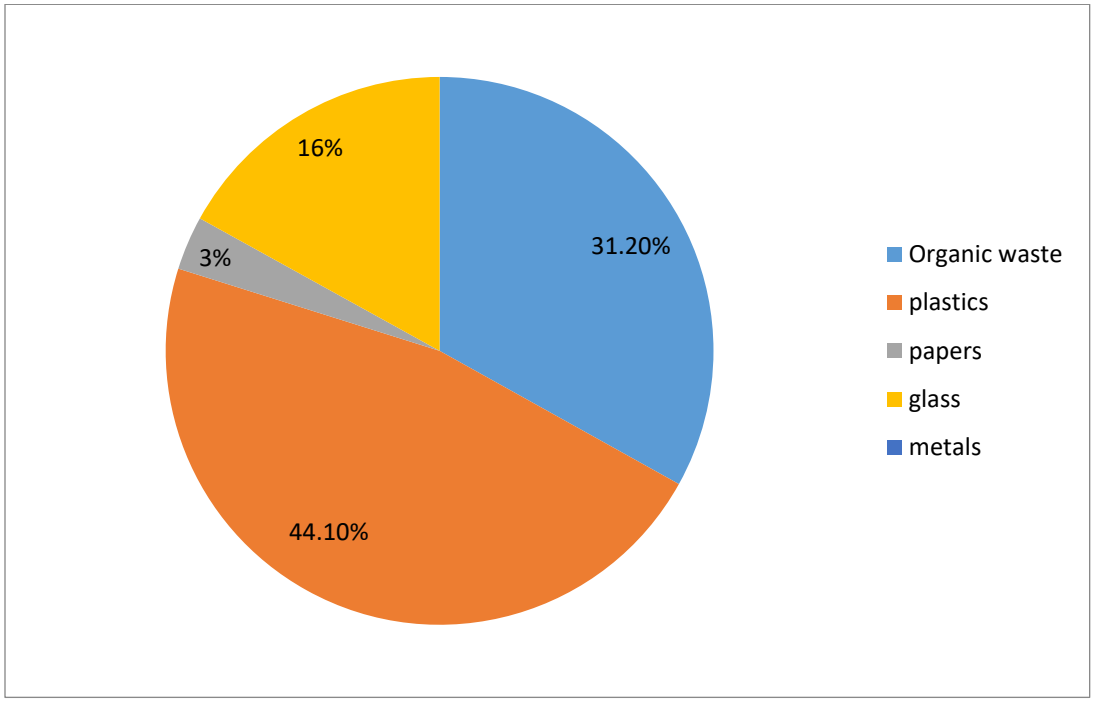

Figure 6. Separation Of Waste

The data above shows which categories of waste separation each respondent is familiar with, 44.1% organic waste, 31.2% metals, 16% glass, 3% papers.

4.2.3 HOW FREQUENTLY WASTE COLLECTED FROM YOUR HOUSEHOLDS

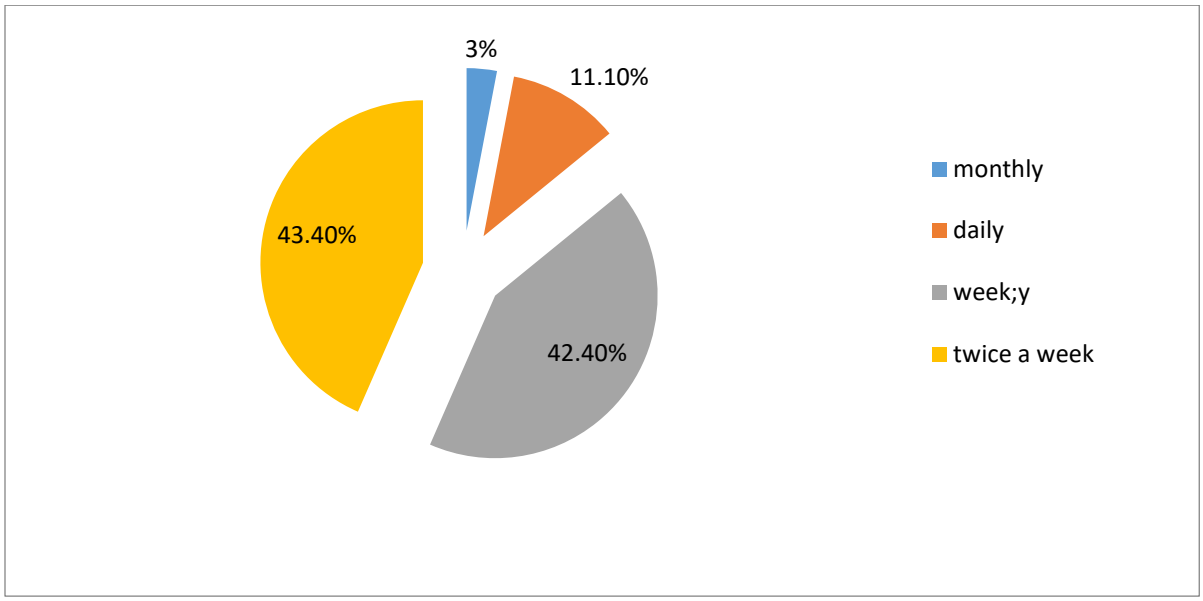

Figure 7 Waste Collection

According to the data collected above waste collection from most of the households is collected twice a week 43.4%, 42.4% weekly, 11.1% daily, 3% monthly.

4.2.4 ARE YOU AWARE OF PROPER WASTE MANAGEMENT PRACTICES?

RESPONSES	PERCENTANGE
YES	93.8%
NO	6.25%

Table 3: Are You Aware Of Proper Waste Management Practices?

According to the table majority of the population are aware of proper waste management practices with 93.8% aware and only 6.25% are not aware

4.2.5 WHERE DID YOU LEARN ABOUT THE WASTE MANAGEMENT PRACTICES

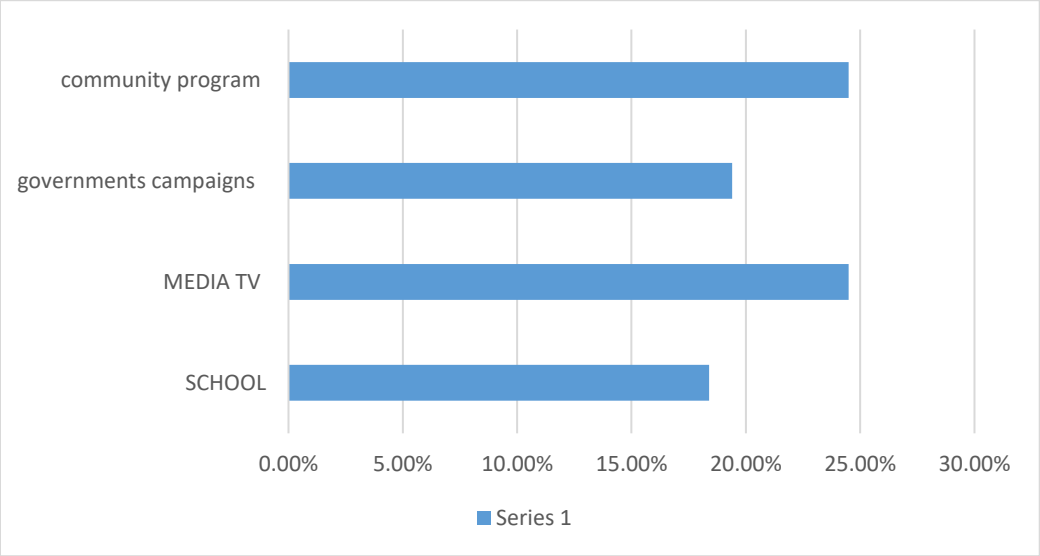

Figure 8; Waste Management Practices

According to figure 9 the data shows that 34.7% of the population they learn waste management practices from media ,24,5% community program , 19.4% government campaigns ,18.4 % school.

4.3 SOCIAL FACTORS

4.3.1 WHAT CHALLENGES DO YOU FACE MANAGING HOUSEHOLD WASTE?

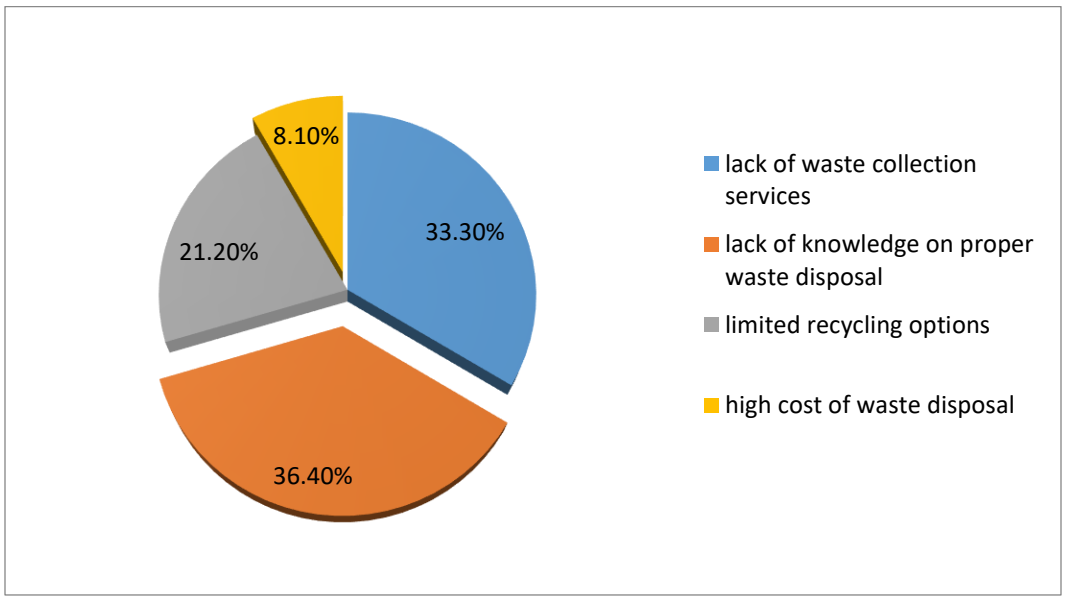

Figure 9; Challenges On Waste Management

The data above shows that majority of the population 36.4% lack the knowledge on proper waste disposal, 33.3% lack waste collection services, 21.2% have limited recycling options and 8.1% high cost of waste disposal.

4.3.1 DO YOU THINK IMPROPER WASTE MANAGEMENT AFFECTS THE ENVIRONMENT

RESPONSES	PERCENTANGE
YES	97.9%
NO	2.1%
TOTAL	100%

Table 4: Do You Think Improper Waste Management Affects The Environment

The table above shows that 97.9% of the populations know that improper waste management affects the environment while only 2.1% of the populations are not aware.

4.3.2 EFFECTS OF IMPROPER WASTE MANAGEMENT

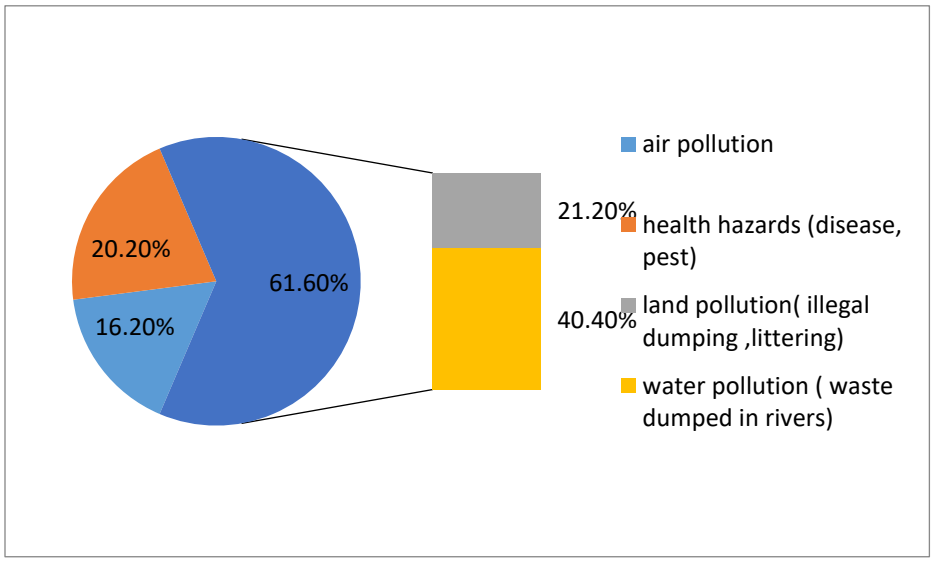

Figure 10; Effect Of Improper Waste Management The Population Has Observed

According to the data shown above 40.4% have observed water pollution, 20.2% health hazards 21.2% land pollution, 16.2% air pollution
